

# PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Sunday 17th December 2017

A 5x5 grid of arrows on a coordinate system. The grid consists of 25 small squares. Each square contains one of four types of arrows: a right-pointing arrow (>), a left-pointing arrow (<), an up-pointing arrow (^), or a down-pointing arrow (v). The arrows are arranged in a repeating pattern across the grid. The first row has arrows pointing right, left, up, up, and left. The second row has arrows pointing right, left, right, up, and right. The third row has arrows pointing right, left, left, down, and left. The fourth row has arrows pointing left, right, left, up, and right. The fifth row has arrows pointing right, left, right, up, and right. The grid is bounded by thick black lines at the intersections of the 6th and 7th vertical and horizontal grid lines.
