

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Monday 21st August 2017

This is a 9x9 grid for a Greater Than Sudoku puzzle. The grid is divided into 3x3 subgrids by thick black lines. Numerical values are not provided; instead, comparison operators (greater than > and less than <) are placed at the intersections between cells. These operators indicate the relative values of the numbers in adjacent cells. For example, if a cell contains a 5 and its neighbor contains a 3, the operator > must be placed at the boundary between them.
