

# PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Monday 27th August 2018

A 4x4 grid of arrows on a coordinate system. The grid consists of 16 small squares. Arrows point from the center of each square to its top-right corner. The arrows are oriented as follows:

- Top row: Top-left arrow points down-left, top-center arrow points up-right, top-right arrow points up-right.
- Second row: Second-left arrow points up-left, center arrow points up-right, third-right arrow points up-right, bottom-right arrow points up-right.
- Third row: Second-left arrow points down-left, center arrow points up-right, third-left arrow points up-right, bottom-right arrow points up-right.
- Bottom row: Bottom-left arrow points down-left, bottom-center arrow points up-right, bottom-right arrow points up-right.
