>							<	

This is a 9x9 Greater Than Sudoku puzzle grid. The grid is divided into three 3x3 blocks by thick black lines. The numbers 1 through 9 must be placed in the grid such that each row, column, and 3x3 block contains all digits exactly once. The greater than (>) and less than (<) symbols between cells indicate that the digit in one cell must be greater than or less than the digit in the adjacent cell.
