A 9x9 grid for a Greater Than Sudoku puzzle. The grid is divided into 3x3 boxes by thick black lines. Numerical values are not provided; instead, comparison operators (> or <) are placed at the intersections of the grid lines to indicate the relative values of adjacent cells. For example, in the top-left 3x3 box, the top-left cell contains '>' and the cell below it contains '<'. The operators are distributed such that each row and column contains every operator exactly once.
