

The image shows a 3x3 grid of 9 cells. Each cell contains a unique pattern of black arrows. The arrows are drawn as simple line segments with a V-shaped head. The patterns are as follows:

- Top-left cell: Two vertical arrows pointing right, one in the middle and one in the bottom.
- Top-middle cell: A central cross of four arrows pointing up, down, left, and right. Additionally, there are two diagonal arrows pointing up-left and up-right at the top of the cross.
- Top-right cell: A vertical arrow pointing left in the top, and two vertical arrows pointing left in the middle and bottom.
- Middle-left cell: A vertical arrow pointing right in the top, a vertical arrow pointing left in the middle, and a vertical arrow pointing left in the bottom. There are also two horizontal arrows pointing left in the middle and bottom rows.
- Middle-middle cell: A central cross of four arrows pointing up, down, left, and right. Additionally, there are two diagonal arrows pointing down-left and down-right at the bottom of the cross.
- Middle-right cell: A vertical arrow pointing left in the top, a vertical arrow pointing left in the middle, and two vertical arrows pointing left in the bottom. There are also two horizontal arrows pointing left in the middle and bottom rows.
- Bottom-left cell: A vertical arrow pointing right in the top, a vertical arrow pointing left in the middle, and a vertical arrow pointing right in the bottom. There are also two horizontal arrows pointing left in the middle and bottom rows.
- Bottom-middle cell: A central cross of four arrows pointing up, down, left, and right. Additionally, there are two diagonal arrows pointing down-left and down-right at the bottom of the cross.
- Bottom-right cell: A vertical arrow pointing left in the top, a vertical arrow pointing left in the middle, and a vertical arrow pointing left in the bottom. There are also two horizontal arrows pointing left in the middle and bottom rows.
