

PUZZLE MADNESS

Daily Hard Greater Than Sudoku Puzzle for Monday 13th May 2024

A 5x5 grid of arrows on a coordinate system. The grid is defined by horizontal and vertical lines. Arrows point in various directions: right (>), left (<), up (^), and down (v). The arrows are placed at the intersections of the grid lines, except for the center cell which is empty. The pattern of arrows creates a central cross shape with alternating directions extending towards the edges.
