

The image displays a 3x3 grid of 9 sub-grids, each measuring 3x3 units. Each sub-grid contains a unique pattern of black arrows. The arrows are oriented in various directions: horizontally (left and right), vertically (up and down), and diagonally (up-left, up-right, down-left, and down-right). The patterns vary across the sub-grids, with some having more arrows than others. For example, the top-middle sub-grid has four arrows, while the bottom-right sub-grid has only two.
