

The image shows a 3x3 grid of squares. Each square contains a unique pattern of black arrows. The arrows are oriented in various directions: some point horizontally (left or right), some vertically (up or down), and some diagonally (up-left, up-right, down-left, down-right). The patterns vary from square to square, with some squares having multiple arrows and others having fewer. For example, the top-left square has two arrows pointing left, while the bottom-right square has two arrows pointing right.
