

The grid-in response area consists of a 6x6 grid of bubbles. The columns are labeled 1 through 6 at the top, and the rows are labeled 1 through 6 on the left. The grid is divided into four 3x3 quadrants by a vertical line between columns 3 and 4, and a horizontal line between rows 3 and 4. The bubbles are arranged as follows:

	1	2	3	4	5	6
1	•					
2						
3	•					
4						
5						
6						

Note: The grid in the image is more complex, with some bubbles filled and some empty, and some numbers are already written in the bubbles. The grid is divided into four 3x3 quadrants by a vertical line between columns 3 and 4, and a horizontal line between rows 3 and 4. The bubbles are arranged as follows:

	1	2	3	4	5	6
1	•					
2						
3	•					
4						
5						
6
