

The figure displays a 3x3 grid of scatter plots, each with a unique title (1 through 9) and a distinct set of data points. The data points are represented by open circles and solid black dots. The plots are arranged as follows:

- Plot 1 (Top Left):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 2 (Top Middle):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 3 (Top Right):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 4 (Middle Left):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 5 (Middle Middle):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 6 (Middle Right):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 7 (Bottom Left):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 8 (Bottom Middle):** Contains 8 data points, mostly open circles, with a few solid dots.
- Plot 9 (Bottom Right):** Contains 8 data points, mostly open circles, with a few solid dots.
