

A 10x10 grid with a black border. A thick black path is drawn on the grid, starting from the top-left corner (row 1, column 1) and ending at the bottom-right corner (row 10, column 10). The path is composed of horizontal and vertical segments, creating a complex, non-linear route that visits many cells. The path starts at (1,1), goes right to (1,2), down to (2,2), right to (2,3), down to (3,3), right to (3,4), down to (4,4), right to (4,5), down to (5,5), right to (5,6), down to (6,6), right to (6,7), down to (7,7), right to (7,8), down to (8,8), right to (8,9), down to (9,9), right to (9,10), down to (10,10). The path is a single continuous line that forms a complex shape, possibly representing a maze or a specific algorithm's output.
