

A 6x6 grid with 12 white circles and 3 black circles. The white circles are located at (1, 1), (1, 2), (2, 1), (2, 2), (3, 1), (3, 2), (4, 1), (4, 2), (5, 1), (5, 2), (6, 1), and (6, 2). The black circles are located at (3, 3), (4, 3), and (5, 3). The grid is defined by 7 vertical and 7 horizontal lines, creating 36 squares. The circles are placed at the intersections of these lines, specifically at the intersections of the first two columns with the first two rows, and at the intersections of the third, fourth, and fifth columns with the third row.
