

The image shows a 10x10 grid. A thick black line forms a path that starts at the top-left corner (0,0), moves right to (4,0), then down to (4,4), then right to (6,4), then down to (6,6), then right to (8,6), then down to (8,8), then right to (9,8), then down to (9,9), then left to (3,9), then up to (3,4), then left to (1,4), then up to (1,1), then right to (2,1), then down to (2,2), then right to (3,2), then down to (3,3), then right to (4,3), then down to (4,4). The remaining cells in the grid are connected by thin gray lines, forming a single continuous area.
