

A 10x10 grid with a black path and a red starting point. The path starts at the red dot in the top-left corner (row 1, column 1) and proceeds through the following sequence of cells: (1,1) to (1,2) to (1,3) to (1,4) to (1,5) to (1,6) to (1,7) to (1,8) to (1,9) to (1,10) to (2,10) to (2,9) to (2,8) to (2,7) to (2,6) to (2,5) to (2,4) to (2,3) to (2,2) to (2,1) to (3,1) to (3,2) to (3,3) to (3,4) to (3,5) to (3,6) to (3,7) to (3,8) to (3,9) to (3,10) to (4,10) to (4,9) to (4,8) to (4,7) to (4,6) to (4,5) to (4,4) to (4,3) to (4,2) to (4,1) to (5,1) to (5,2) to (5,3) to (5,4) to (5,5) to (5,6) to (5,7) to (5,8) to (5,9) to (5,10) to (6,10) to (6,9) to (6,8) to (6,7) to (6,6) to (6,5) to (6,4) to (6,3) to (6,2) to (6,1) to (7,1) to (7,2) to (7,3) to (7,4) to (7,5) to (7,6) to (7,7) to (7,8) to (7,9) to (7,10) to (8,10) to (8,9) to (8,8) to (8,7) to (8,6) to (8,5) to (8,4) to (8,3) to (8,2) to (8,1) to (9,1) to (9,2) to (9,3) to (9,4) to (9,5) to (9,6) to (9,7) to (9,8) to (9,9) to (9,10) to (10,10) to (10,9) to (10,8) to (10,7) to (10,6) to (10,5) to (10,4) to (10,3) to (10,2) to (10,1). The path ends at (10,1). The red dot is located at the top-left corner of the grid, specifically at the intersection of the first row and first column.
