

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,1)=2, (1,2)=3, (1,3)=4, (1,4)=1, (1,5)=1; Row 2: (2,1)=7, (2,3)=1, (2,4)=8, (2,5)=4; Row 3: (3,1)=4, (3,3)=3, (3,4)=9, (3,5)=6; Row 4: (4,2)=8, (4,3)=9, (4,4)=7, (4,5)=4, (4,6)=1; Row 5: (5,5)=7, (5,6)=5. A path of grey lines connects the numbers in the following order: 2 (1,1) -> 3 (1,2) -> 4 (1,3) -> 4 (2,4) -> 5 (2,5) -> 3 (3,5) -> 8 (3,4) -> 9 (3,3) -> 3 (3,2) -> 4 (4,1) -> 8 (4,2) -> 9 (4,3) -> 7 (4,4) -> 5 (5,6) -> 4 (5,5) -> 3 (4,5) -> 1 (4,6) -> 2 (4,4) -> 1 (2,3) -> 7 (2,1) -> 2 (1,1).
