

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,3)=9, (1,5)=5, (1,6)=8, (2,2)=6, (2,3)=4, (2,5)=8, (2,6)=2, (3,1)=4, (3,2)=9, (3,3)=5, (3,5)=9, (3,6)=1, (4,1)=9, (4,2)=1, (4,3)=8, (4,5)=4, (4,6)=1, (5,1)=1, (5,2)=8, (5,5)=9, (5,6)=4, (6,1)=3, (6,2)=6, (6,5)=9, (6,6)=9. A path of grey lines connects the following cells: (1,2) to (1,3), (1,3) to (1,4), (1,4) to (2,4), (2,4) to (2,5), (2,5) to (3,5), (3,5) to (3,6), (3,6) to (4,6), (4,6) to (4,5), (4,5) to (4,4), (4,4) to (4,3), (4,3) to (4,2), (4,2) to (4,1), (4,1) to (5,1), (5,1) to (5,2), (5,2) to (5,3), (5,3) to (5,4), (5,4) to (5,5), (5,5) to (5,6), (5,6) to (6,6), (6,6) to (6,5), (6,5) to (6,4), (6,4) to (6,3), (6,3) to (6,2), (6,2) to (6,1), (6,1) to (5,1).
