

A 5x5 grid with numbers and a path. The numbers are: Row 1: (1,1)=2, (1,2)=8, (1,3)=2, (1,4)=8, (1,5)=5; Row 2: (2,1)=8, (2,2)=4, (2,3)=3, (2,4)=5, (2,5)=4; Row 3: (3,1)=3, (3,2)=1, (3,3)=4, (3,4)=8, (3,5)=1; Row 4: (4,1)=3, (4,2)=7, (4,3)=5, (4,4)=1, (4,5)=8; Row 5: (5,1)=1, (5,2)=8, (5,3)=9, (5,4)=6, (5,5)=7. A path of grey lines connects the numbers in the following order: 2 (1,1) -> 4 (2,2) -> 2 (1,3) -> 8 (1,4) -> 5 (2,4) -> 4 (2,5) -> 1 (3,5) -> 8 (3,4) -> 1 (3,3) -> 4 (3,2) -> 7 (4,2) -> 3 (4,1) -> 1 (5,1) -> 8 (5,2) -> 9 (5,3) -> 6 (5,4) -> 7 (5,5).
