

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,3)=3, (1,4)=9, (1,5)=4; Row 2: (2,1)=4, (2,3)=7, (2,4)=3, (2,5)=1, (2,6)=7; Row 3: (3,1)=2, (3,2)=3, (3,3)=5, (3,4)=5, (3,5)=7, (3,6)=3, (3,7)=8; Row 4: (4,1)=6, (4,2)=2, (4,3)=5, (4,4)=1, (4,5)=5; Row 5: (5,1)=3, (5,6)=3; Row 6: (6,1)=9, (6,3)=5, (6,4)=6, (6,6)=8. A path of gray lines connects the numbers in the following order: 3 (1,3) -> 7 (2,3) -> 2 (3,1) -> 3 (3,2) -> 5 (3,3) -> 5 (3,4) -> 2 (4,2) -> 5 (4,3) -> 1 (4,4) -> 5 (4,5) -> 3 (5,6) -> 3 (5,6) -> 9 (6,1) -> 5 (6,3) -> 6 (6,4) -> 8 (6,6).
