

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=6, (1,3)=3, (1,4)=2, (1,6)=6, (2,1)=2, (2,2)=8, (2,3)=5, (2,4)=3, (2,5)=2, (2,6)=9, (3,1)=9, (3,2)=6, (3,3)=8, (3,4)=7, (3,5)=7, (3,6)=2, (3,7)=8, (4,1)=7, (4,4)=3, (4,5)=5, (4,6)=1, (4,7)=7, (5,4)=6, (5,5)=9.

The path is a continuous line of gray segments connecting the following cells: (1,1) to (1,2), (1,2) to (1,3), (1,3) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (3,6), (3,6) to (3,5), (3,5) to (3,4), (3,4) to (3,3), (3,3) to (3,2), (3,2) to (3,1), (3,1) to (4,1), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (4,6) to (4,7), (4,7) to (5,7), (5,7) to (5,6), (5,6) to (5,5), (5,5) to (5,4), (5,4) to (5,3), (5,3) to (5,2), (5,2) to (5,1), (5,1) to (6,1), (6,1) to (6,2), (6,2) to (6,3), (6,3) to (6,4), (6,4) to (6,5), (6,5) to (6,6), (6,6) to (6,7), (6,7) to (6,8).
