

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,1)=9, (1,2)=7, (1,3)=6, (1,6)=3; Row 2: (2,1)=5, (2,3)=8, (2,4)=2, (2,5)=9, (2,6)=4; Row 3: (3,1)=8, (3,2)=1, (3,4)=1, (3,6)=9; Row 4: (4,1)=6, (4,2)=3, (4,3)=4, (4,4)=5, (4,6)=1; Row 5: (5,3)=9, (5,4)=1, (5,5)=4, (5,6)=3; Row 6: (6,2)=6, (6,3)=8, (6,4)=7, (6,6)=9. A path of grey lines connects the numbers in the following order: 9 (1,1) -> 7 (1,2) -> 6 (1,3) -> 8 (2,3) -> 2 (2,4) -> 9 (2,5) -> 1 (3,4) -> 1 (3,5) -> 9 (3,6) -> 4 (4,6) -> 1 (4,6) -> 3 (5,6) -> 4 (5,5) -> 7 (6,4) -> 8 (6,3) -> 9 (6,3) -> 6 (5,3) -> 3 (4,3) -> 6 (4,2) -> 8 (3,1) -> 5 (2,1) -> 9 (1,1).
