

A 6x6 grid with numbers and a path. The numbers are placed in the following cells (row, column): (1,1)=2, (1,4)=1, (1,5)=6, (1,6)=9, (2,1)=3, (2,4)=9, (2,5)=7, (2,6)=4, (2,7)=7, (3,2)=2, (3,3)=4, (3,4)=1, (3,5)=6, (3,6)=7, (3,7)=5, (4,1)=4, (4,2)=7, (4,3)=1, (4,4)=6, (4,5)=9, (4,6)=8, (5,2)=6, (5,3)=9, (5,4)=3. A path of gray lines connects the numbers in the following order: 2 (1,1) -> 3 (2,1) -> 2 (3,2) -> 4 (3,3) -> 1 (3,4) -> 6 (3,5) -> 7 (3,6) -> 5 (3,7) -> 4 (4,1) -> 7 (4,2) -> 1 (4,3) -> 6 (4,4) -> 9 (4,5) -> 8 (4,6) -> 3 (5,4) -> 9 (5,3) -> 6 (5,2).
