

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,3)=3, (1,4)=2, (1,6)=7, (1,7)=1, (1,8)=8; Row 2: (2,2)=2, (2,3)=9, (2,5)=6, (2,6)=3, (2,7)=5, (2,8)=2, (2,9)=6; Row 3: (3,2)=5, (3,3)=8, (3,6)=5; Row 4: (4,7)=3, (4,8)=9, (4,9)=7; Row 5: (5,7)=5, (5,8)=7, (5,9)=3; Row 6: (6,1)=9, (6,8)=6, (6,9)=2. A path of grey lines connects the following cells: (1,1) to (1,2), (1,2) to (2,2), (2,2) to (2,3), (2,3) to (2,4), (2,4) to (2,5), (2,5) to (2,6), (2,6) to (2,7), (2,7) to (2,8), (2,8) to (3,8), (3,8) to (3,9), (3,9) to (4,9), (4,9) to (4,8), (4,8) to (4,7), (4,7) to (4,6), (4,6) to (4,5), (4,5) to (4,4), (4,4) to (4,3), (4,3) to (4,2), (4,2) to (4,1), (4,1) to (5,1), (5,1) to (5,2), (5,2) to (5,3), (5,3) to (5,4), (5,4) to (5,5), (5,5) to (5,6), (5,6) to (5,7), (5,7) to (5,8), (5,8) to (5,9), (5,9) to (6,9), (6,9) to (6,8), (6,8) to (6,7), (6,7) to (6,6), (6,6) to (6,5), (6,5) to (6,4), (6,4) to (6,3), (6,3) to (6,2), (6,2) to (6,1).
