

A 9x9 grid with numbers and a path. The numbers are: Row 1: (1,1)=7, (1,6)=5, (1,8)=4, (1,9)=6; Row 2: (2,2)=3, (2,3)=9, (2,7)=8; Row 3: (3,1)=6, (3,3)=2, (3,4)=9, (3,5)=4, (3,8)=1; Row 4: (4,1)=8, (4,6)=3; Row 5: (5,2)=5, (5,3)=6, (5,7)=4; Row 6: (6,7)=7; Row 7: (7,5)=8, (7,8)=1; Row 8: (8,2)=7, (8,4)=2, (8,8)=8; Row 9: (9,1)=1, (9,3)=8. A path of grey lines connects the numbers in the following order: 7 (1,1) -> 3 (2,2) -> 9 (2,3) -> 5 (1,6) -> 4 (1,8) -> 8 (2,7) -> 1 (3,8) -> 4 (5,7) -> 7 (6,7) -> 8 (7,5) -> 2 (8,4) -> 7 (8,2) -> 1 (9,1) -> 8 (9,3).
