

A 6x6 grid with numbers and a path. The numbers are: Row 1: (1,3)=3, (1,4)=9, (1,6)=5, (1,7)=4; Row 2: (2,4)=2, (2,5)=5, (2,7)=6, (2,8)=3; Row 3: (3,2)=9, (3,6)=2, (3,8)=1; Row 4: (4,1)=1, (4,2)=2, (4,3)=7, (4,5)=9, (4,6)=3, (4,8)=7; Row 5: (5,3)=6, (5,4)=3, (5,6)=8. The path is a continuous line of gray segments connecting the following cells: (2,5) to (2,6), (2,6) to (3,6), (3,6) to (3,7), (3,7) to (4,7), (4,7) to (4,8), (4,8) to (5,8), (5,8) to (5,7), (5,7) to (5,6), (5,6) to (5,5), (5,5) to (5,4), (5,4) to (5,3), (5,3) to (5,2), (5,2) to (5,1), (5,1) to (4,1), (4,1) to (4,2), (4,2) to (4,3), (4,3) to (4,4), (4,4) to (4,5), (4,5) to (4,6), (4,6) to (3,6), (3,6) to (3,5), (3,5) to (3,4), (3,4) to (3,3), (3,3) to (3,2), (3,2) to (3,1), (3,1) to (2,1), (2,1) to (2,2), (2,2) to (2,3), (2,3) to (2,4), (2,4) to (2,5).
