

A 10x10 grid with a black border and a white background. The grid is divided into 10 columns and 10 rows. The numbers 1, 2, 3, 4, and 5 are placed in the top-left corner of the grid, indicating the starting point for a path. The path is defined by a series of black lines connecting the numbers. The path starts at 1, goes right to 2, then up to 3, then right to 4, and finally down to 5.
