

The image shows a solved 3x3 Numberlink puzzle. The grid contains numbers and grey circles. Grey lines connect the circles, and the numbers indicate the length of the path from that cell to the connected circle. The connections are as follows:

- Top-left (4) connects to a circle in the middle-left (9).
- Top-middle (2) connects to a circle in the middle-middle (4).
- Top-right (3) connects to a circle in the middle-right (5).
- Middle-left (6) connects to a circle in the bottom-left (9).
- Middle-middle (5) connects to a circle in the bottom-middle (2).
- Middle-right (9) connects to a circle in the bottom-right (1).
- Bottom-left (4) connects to a circle in the bottom-middle (2).
- Bottom-middle (2) connects to a circle in the bottom-right (1).
- Bottom-right (6) connects to a circle in the bottom-right (1).
