

The image displays three 3x3 grids, each containing numbers 1 through 8 and a path of grey circles connected by lines. The paths represent a sequence of moves on a 3x3 grid.

- Grid 1 (Left):** The path starts at (1,1) with a value of 8, moves right to (1,2) with a value of 3, then down to (2,2) with a value of 7. The final position is (2,2) with a value of 2.
- Grid 2 (Middle):** The path starts at (1,1) with a value of 3, moves right to (1,2) with a value of 5, then down to (2,2) with a value of 6. The final position is (2,2) with a value of 1.
- Grid 3 (Right):** The path starts at (1,1) with a value of 8, moves right to (1,2) with a value of 7, then down to (2,2) with a value of 4. The final position is (2,2) with a value of 5.
