

A 4x4 grid with numbers and circles. The grid is divided into four 2x2 quadrants by a vertical and a horizontal line. The numbers are placed in the cells, and the circles are placed in the cells. The numbers are: Row 1: (1,1)=5, (1,2)=6, (1,3)=4, (1,4)=1; Row 2: (2,1)=3, (2,2)=3, (2,3)=2, (2,4)=7; Row 3: (3,1)=6, (3,2)=9, (3,3)=2, (3,4)=6; Row 4: (4,1)=2, (4,2)=8, (4,3)=7, (4,4)=5. The circles are placed in the cells: Row 1: (1,1) circle, (1,2) circle, (1,3) circle, (1,4) circle; Row 2: (2,1) circle, (2,2) circle, (2,3) circle, (2,4) circle; Row 3: (3,1) circle, (3,2) circle, (3,3) circle, (3,4) circle; Row 4: (4,1) circle, (4,2) circle, (4,3) circle, (4,4) circle.
